

Members of the Iowa Firemen's Association:

Your board members are constantly trying to find ways to improve this fine organization. A request was made to utilize the web and our website better. So in response to that, we have started a forum available to all members of the association.

This forum is in a trial stage and will undoubtedly change over time. This forum will give you a chance to post ideas and questions and allow your peers to reply. This is a great opportunity to improve communication for the fire service in Iowa.

To register, simply go to <http://iafireassn.forumcircle.com> . Once at the site, click on the welcome and registration post and follow the directions. You must follow the instructions and send the required email to the site administrator in order to get registered.

This is your site firefighters! Feel free to email comments, suggestions, and concerns to: iafireassn@yahoo.com.

Thank you,

IFA Board of Directors
